Locals Smash Redland High Of Homestead By 12-4 Score

Joe Lewis Hits Home Run, Double, Single In Four Trips To Plate

Key West High won their third straight game of the season last night when they defeated Redlands High School of Homestead by the score of 12-4.

"Chip" Fernandez was on the mound for the Conchs and worked four and one-half innings, allowing three hits, one walk, and struck out seven batters. In the fourth, Chip got into trouble, with three straight hits and a walk, and Joe Lewis came in to finish the game, allowing two hits and one run in two and a half innings.

The Conchs got away to an early lead when Hernandez led off in the first inning with a double, Lewis hit a single, Solomon walked and Hernandez brought two runs in with a single. In the second innnig, Gwynn walked, and Hernandez was safe on an error, Lewis hit a terrific home run to clean the bases for three more runs.

In the third, Hernandez hit a double, and came home on a pair of outs.

In the fourth, Gwynn led off with a walk, Fernandez walked, Lewis cleaned the bases with a double, Solomon singled and Henriquez again cleaned the bases with a double. The final two runs came in the seventh inning when D. Cruz walked, John Cruz hit safely and Fernandez brought them in with a line double.

The Conchs played errorless ball with Fernandez turning a line drive into a double play for the best fielding play of the game. Henriquez, Solomon and Hernandez accepted fielding chances for good defensive play.

The Conchs next game will be with Homestead, there.

Box score:

Key West Conchs

Player—	AB	R	H	RBI
Hernandez, 2b	4	3	2	0
Lewis, ss-p	4	3	3	3
Solomon, 3b-ss	3	1	1	0
Henriquez, c	4	1	3	2
Knowles, 1b	3	0	0	0
D. Cruz, lf	3	1	0	1
Shepperd, cf	2	0	0	0
Gwynn, rf	1	1	0	0
Fernandez, p-3b	3	1	1	2
Doughtry, rf	1	0	0	0
J. Cruz, cf	2	1	1	0
Totals—	23	12	11	10

Home run: Lewis; two-base hits: Hernandez, Lewis, Henriquez 2.

CASA CAYO HUESO

(Continued From Page One)

streets. The first floor is now used by Dr. Leonard Conly as his office and the second floor is occupied by the Hudson Clinic, operated by Conly who lives with his family on the third floor.

Rezine, who owns other valuable Key West realty, plans to leave shortly for an extended visit at his former home in Italy.

The sale of Casa Cayo Hueso for $40,000 to Julius Stone includes all the land, buildings, good-will, liquor license, etc.

Stone was contacted this morning by The Citizen, and the attorney stated that he is only one of the purchasers of the property. Neither he nor his associates have decided what they will do with the valuable property.

It may be used as a residence by one of the owners; the present business may be continued, or there is also the possibility of tearing the building down, and placing motels on the area.

SIGNED AND SEALED

(Continued From Page One)

the signature of three Key Westers, but also the school board, and circuit court seals.

Now the bonds must be approved by the bond attorneys, and if found in proper condition, delivered to the Trust Company of Georgia that has purchased the bonds at a very low interest rate.

After that, the $500,000 will be available to the School Board for its construction and repair program for Monroe County Schools.

The officials made the trip to Miami by plane.

ITALY WARNS SHE

Continued From Page One)

and on the west by the Adriatic. Located on the Istrian Peninsula, Trieste has been Italian or under Italian dominance most of the time from the days of the Roman Empire through the Venetian Republic to the fall of Napoleon. For a time it was the leading port for the Austrian empire, but at the end of the first world war, Italy regained the territory. Hence, Italy feels that Trieste belongs to her.

Behind The World News

By WALTER BREEDE, JR.,
Associated Press Writer

We have not yet heard the last word in the growing argument about flying saucers.

Are they real?

Or are they just a nightmarish dream—the result of hyper-active imaginations?

The Navy, the Air Force, the National Advisory Committee for Aeronautics and other official groups continue to tell us:

"There is no such thing. The government is not experimenting with flying saucers."

On the other hand, there has been a flurry of reports of late that flying saucers do exist—and that they are some kind of super-jet plane being built in great secrecy for our Air Force and our Navy.

So whom are we to believe—those of us who have never seen a flying saucer?

Here are some of the many theories and guesses being batted around at the present time:

In the camp of the skeptics we find Dr. Robert Millikan, 82-year-old Nobel Prize winning physicist and expert on cosmic rays. He says most of the people who claim to have seen the silvery discs were suffering from hallucinations.

The others, according to Dr. Millikan, either were looking at some planet, like the moon, or they mistook observation balloons for flying saucers.

That is at wide variance with the views expressed by some editors and radio commentators.

They predict amazing things for the flying saucers. One theory which has gained wide accedence is that the discs which are reported to have been seen in recent months are really experimental fighter planes, jet-propelled, and possessing unbelievable maneuverability and speed.

And here, word for word, is a description of the flying saucer, as it appeared in a nationally-circulated magazine:

"Flying saucers," says the magazine, "are accepted as real. Evidence is that they are aircraft of a revolutionary type, a combination of helicopter and fast jet plane. They conform to well known principles of aeronautics."

And the magazine article goes on to say: "An early model of these saucers was built by U. S. engineers in 1942, achieved more than 100 successful test flights. That project was taken over by the Navy in wartime. Much more advanced models are now being built."

It all makes a very fascinating story.

But here, too, it might be well to recall that truth can often be more exciting than fiction. A really breath-taking scheme is outlined by one of the nation's top experts on guided missiles. The scientist, Dr. Charles Green, envisions the day when guided rockets will be shot into space—above the pull of gravity. And there they'll hang, 100 miles from the earth's surface. Dr. Green says you could bounce radar signals off these man-made satellites, and so locate any object you wanted to anywhere on earth.

Impossible?

Not at all, says Dr. Green. All that's needed is time, and money.

Now to leave the dream world of science for a moment, and get back to cold, hard facts . . .

While the flying saucer stories may or may not be true, there's no escaping the unpleasant truth that another German Air Force is in the making.

Young Germans in the Russian occupation zone are being trained in the art of glider flying.

This glider training business proved very helpful to the Germans before the war, when they were not allowed to have airplanes. Thousands of young Germans formed glider clubs, and became proficient glider pilots. Later they formed the nucleus of Hitler's Air Force.

SLAMMIN' SAMMY IN THE SAND

(AP) Wirephoto

SLAMMING SAM SNEAD, the defending champion, blasts his way out of a sand trap in the Masters' Golf Tournament at Augusta, Ga. In spite of the shower of sand, Sam did all right by himself on this play. The ball stopped within inches of the pin on the second green for a par 5. He scored 71, one under par, on the first round. Snead, who lives at White Sulphur Springs, W. Va., won the Masters' Tournament last year.

Florida Briefs

CANNOT IDENTIFY BODY OF MAN

FORT WALTON, April 8.—(AP).—Law officials of three states today were asked to help identify the body of a man that washed ashore on a Gulf Beach Monday.

Fort Walton, Fla., Constable Oscar L. Bengsten said efforts to identify the body had been unsuccessful. He forwarded a description to officers in surrounding communities.

The man was about fifty years old, six feet tall, and weighted about 180-pounds.

ERVIN RULES ON INSURANCE COMPANIES

TALLAHASSEE, April 8.—(AP)—Foreign insurance companies should be required to hold a quarter of million dollars worth of bonds or mortgages before doing business in Florida. That's the opinion of Attorney General Richard Ervin.

Ervin told State Treasurer and Insurance Commissioner Ed Larson that the statutes did not specifically require such assets of a company with headquarters outside the United States, but he thought they could be demanded "in the interest of public welfare."

STEAL PURSE; FLEE WITH AUTOMOBILE

MIAMI, April 8.—(AP).—A woman tells the story of how two armed men stole a dollar from her purse and then fled with her car.

Detective Sergeant Jerry Baldwin identified the woman as Miss Margie Mason. West Flagler St.

The woman said the men jumped into her car when she stopped at a traffic light about midnight. Then, she said, they drove her to a deserted road, took a dollar from her purse, and told her to get ou.

Miss Mason said the two men were "very polite."

Baldwin said there was a possibility the men might be connected with yesterday's payroll robbery at the City Construction Company.

At Miami Beach thieves looted, a camera shop and a garge of $613 in cash and cameras today. Detectives said the robbers broke into the Beach Chevrolet Company and Carl's Camera Shop.

WANTED CRIMINAL CAUGHT IN FLA.

DAYTONA BEACH, Apr. 8.—(AP).—One of this country's most wanted outlaws will be arraigned here today.

He is Lee Emory Downs. Downs and his wife were captured in their luxurious house trailer yesterday. Downs has a long prison record and has been wanted for two years in connection with a burglary at a telephone office in San Jose, California.

The FBI has disclosed how they got on Downs' trail. It was, no pun intended, through the trailer.

It seems Downs was a known associate of a man named Walter Lennon, who was killed this week resisting arrest in California. A check of Lennon's papers disclosed registration of a trailer. Then the authorities went looking for the trailer. They found it in Florida, and there was the fugitive, Lee Emory Downs.

Actually he was under the trailer, working on the vehicle, and his wife was inside. Downs and the woman surrendered peacefully.

The trailer was a veritable arsenal, six rifles, three pistols, ammunition and nine sticks of dynamite.

Altogether it was some trailer, so luxurious that it was fixed up with television and had a piano.

WANTS GAMBLING LAWS ENFORCED

TALLAHASSEE, April 8.—(AP).—Governor Warren said today he has sent the Palm Beach County sheriff a copy of the opinion by the Attorney General declaring cities have no authority to legalize punchbards.

Warren said he wrote Sheriff John F. Kirk "I repeat previous instructions to strictly enforce the law."

The governor declined to comment further.

Sheriff Kirk wrote the governod that several municipalities in Palm Beach County licensed punch boards and asked instructions for enforcement of state gambling laws.

Frank Lovering To Publish Another Book On Maine

It has been announced by the Falmouth Publishing House of Portland, Me., that two editions of a book entitled "Odd Trails Across Maine," by Frank W. Lovering, will shortly be published.

One of them is a trade edition, cloth bound, which will sell at $33.00, while the other edition is a deluxe limited edition, specially printed on fine paper, expensively bound, boxed and autographed by the author, which will sell at $7.50.

Either book will be a fine gift item, the publishers state, and this announcement should be of interest to many persons here in Key West, for Mr. Lovering is a frequent contributor to The Citizen with articles of interest not only to Floridians, but of national importance.

Adams Dairy To Play Epperson Tomorrow

A doubleheader between Adams Dairy and USS Epperson and between the Atomic Bombers and the Key West Cubans will be played tomorrow at Wickers' Field.

The batteries will be, for the Dairy team, Villareal and Lee Griffin and Valenski and Driggers for the Navy team.

The Bombers have won four straight games at Miami Field, two from the Cubans and two from the Railey-Milam nine. Claude Valdez will pitch and Buster Roberts will be behind the plate for the Bombers, while the Cubans will use Kaki Rodriguez, with Joe Castro catching.

First game starts at 1 p. m.

TODAY'S BIRTHDAYS

(Know America)

Dr. Albert Z. Mann, of St. Paul, Minn., noted Methodist preacher, born at Fairland, Ind., 63 years ago.

Frank Shay, of Cape Cod, Mass., bookman and author, born in East Orange, N. J., 62 years ago.

MEXICO'S AGE SET BACK 3,000 YEARS

BERKELEY, Calif.—(AP).—Intensive cultivation of Mexican soil was started 3,000 to 5,000 years ago, says Dr. Sherburne F. Cook of the University of California. Most experts have placed the time at about 2,000 years ago.

Basing his estimates on soil conditions, he says Mexico's ancient population was so big and the soil so cultivated that much of the land was near ruin long before the white man arrived.

City Commission Meets To Discuss Price Of Milk

The price of milk in Key West will be considered at a special meeting of the City Commission called for this afternoon, City Manager Ralph D. Spalding said today.

The Commission not only will consider the price of milk, but is expected to appoint an acting judge of municipal to take the place of Judge Hilary Albury, who is now out of the city for a few days.

The Commission also will consider reducing the assessments laid against several properties.
